

AMENDMENTS TO THE DRAWINGS

Please amend the Fig. 3 by adding the reference numeral 34 to show the described and claimed detent/depression. An "Annotated Marked-up Drawing" sheet is attached for the Examiner's convenience as is a "Replacement Sheet".

No new matter is being added since the detent is fully described in paragraph [0016], as well as the original claims (including reciting the detent as a depression), and was previously shown in the drawings (although not provided with a reference numeral).

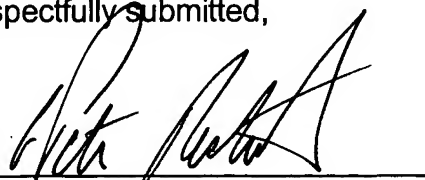

REMARKS

The drawings were objected to for various reasons. Applicants submit a Replacement sheet in which reference numeral 34 has been added to refer to the detent/depression. Reference numeral 35 has been deleted from paragraph [0016] to correct an obvious typographical error. Therefore, the objection to claims 10-12, 17, and 19 should be moot. The term "step" has been canceled from claim 11 and thus, this objection is now moot. With respect to the objection to the term "projection", Applicants note that it is shown in Fig. 5 and described in paragraph [0017]. Therefore, Applicants cannot agree with this objection and request that it be withdrawn.

Several of the claims were objected to and or rejected as being indefinite. Those claims have been amended and thus, it is believed that the objections/rejections no longer apply. Applicants request withdrawal of the objections/rejections.

It is believed that all the claims are allowable and Applicants request notification to that effect. If, for any reason, the Examiner feels that the above amendments and remarks do not put the claims in condition for allowance, the undersigned attorney can be reached at (312) 321-4276 to resolve any remaining issues.

Respectfully submitted,

G. Peter Nichols
